The Fur-Bearers want justice for beaver struck by multiple arrows

Non-profit offers reward for information leading to identification and conviction of person(s) responsible

WEST KELOWNA – A \$1,200 reward is on the table for information leading to the identification and conviction of the person(s) responsible for shooting a beaver with multiple arrows.

The Fur-Bearers, a BC-based non-profit, offered the reward after hearing the news of the disturbing sighting of the beaver near the West Kelowna Yacht Club.

“It is extremely unsettling that someone would shoot a beaver with multiple arrows like this,” says Adrian Nelson, Director of Communications for The Fur-Bearers. “The government investigators say that the beaver was likely enduring extreme pain. We are certain that someone is aware of who is responsible for this act and plead with residents who may have information to contact investigators.”

Anyone with information is asked to contact the Report All Poachers and Polluters Program (RAPP) at 1-877-952-RAPP (7277).

The Fur-Bearers works with communities to provide practical, humane solutions that mitigate the need for lethal control of beavers while ensuring that infrastructure and property is protected from damming activities. More on co-existence with beavers can be found at TheFurBearers.com.
